

Project: Needfinding

- Needs a virtual tour to help the student familiarize with the campus
- Needs a page for financial inquiries and questions linked to main page
- Needs a breakdown with estimation of housing and tuition costs (infographic)
- Needs to be quicker in loading images/websites that are linked to main page
- Needs graphics that do not distract too much from the content of the page
- Needs own page for transfers separate from undergraduate/graduate
- Needs to make sure boxes of text do not change drastically in size when content changes
- Needs smaller text to not be a condensed font/typeface
- Needs more prominent navigation sidebar so users can notice it more easily
- Needs a front page that does not need scrolling in order to make it simpler
- Needs white background on pages that are very content heavy so it is not overwhelming
